

## AIR MAIL PILOTS GO UPON A STRIKE

REVOLUTION  
FLAMES UP  
IN CROATIA

(ASSOCIATED PRESS DISPATCH)  
GRATZ, Styria, July 25.—Violent  
combats occurred at Marburg, 36  
miles south-southeast of Gratz where  
a large part of the garrison revolted  
as a result of dissatisfaction over de-  
mobilization. Thirty persons were  
killed and many wounded.

The movement started at a social-  
ist meeting where speakers advocat-  
ed the formation of a republic of  
Jugo Slavia. Slovenian and Croatian  
soldiers who were present in consid-  
erable numbers cried:

"Let us separate from Serbia!"

PARIS, July 25.—Dispatches from  
Agram and Gratz report a serious  
military revolt in Croatia.

The revolt is taking the form of a  
movement for separation from Ser-  
bia and the formation of a republic.  
Troops are leaving their units, of-  
ficers and subalterns are tearing off  
their insignia and the army is in a  
state of dissolution, the advisers say.  
The railroads and telegraphs are  
tied up from Czakotyn southward.  
The Serbians are trying to suppress  
the revolution by the use of troops;  
both Serbian and Croatian.

PARIS, July 25.—The Croatian  
troops have proclaimed an independ-  
ent Croatian republic, according to  
a dispatch from Agram, the capital.  
At several points the Croatians are  
fraternizing with Hungarian sol-  
diers.

Seek Settlement  
Chicago Strike

(ASSOCIATED PRESS DISPATCH)  
CHICAGO, July 25.—Efforts to  
settle differences between 15,000  
employees of street car and elevated  
lines, and heads of the companies,  
were continued today at a joint  
meeting of union officials, and  
heads of the traction companies  
with the state public utilities com-  
mission.

The men demand a wage increase  
of 27 cents an hour over the pres-  
ent rate of 43 cents, time and a half  
for overtime, and an eight hour day.  
The railway officials have an-  
nounced that any raise in wages is  
contingent on an increase in fare  
which they have asked the public  
utilities to authorize.

CLEVELAND PHONE  
RESUME THEIR POSTS

(ASSOCIATED PRESS DISPATCH)  
CLEVELAND, July 25.—This city  
enjoyed normal telephone service to-  
day for the first time in over three  
weeks as a result of the termination  
of the strike of operators and elec-  
trical workers, who voted almost  
unanimously last night to return to  
work.

The workers returned on the  
basis of the agreement reached in  
Washington Monday at a conference  
of company officials, a special com-  
mittee of city council and post office  
authorities.

The agreement provides that tele-  
phone companies shall permit their  
employees to organize, that all em-  
ployees shall be reinstated, that  
organization activities be forbidden  
during working hours and that im-  
ported employees be returned to their  
homes.

It Can't Be Done!

Convict Hears  
His Children  
Pray For Him

HAMILTON, O., July 25.—"Papa,  
we are praying for you every night  
to come home soon," was the plaintive  
statement in the last letter re-  
ceived by James N. West from his  
five children in Alabama City, Ala.  
But West, guilty of second degree  
murder following the shooting of W.  
O. Kittinger on a Chesapeake & Ohio  
train in Butler county January 21,  
is in jail here awaiting sentence,  
and instead of seeing his children  
"soon" probably will be sent to the  
Ohio penitentiary. West's children  
are ignorant of their father's plight.  
He has not had the heart to tell  
them. His wife is dead.

CONGRESS PLANS  
TO SELL SURPLUS  
ARMY FOODSTUFF

(ASSOCIATED PRESS DISPATCH)  
WASHINGTON, July 25.—A resolu-  
tion calling upon the war depart-  
ment to arrange for the immediate  
sale of \$120,000,000 surplus stock of  
army foodstuffs, was being prepared  
today by Chairman Graham of the  
house war investigating committee.  
The resolution was directed by a vote  
of the ten republican members of the  
committee yesterday and Chairman  
Graham expects to ask for a special  
rule in order to bring it before the  
house Monday.

The committee, with the five dem-  
ocratic members withholding declin-  
ation, declared for a plan of distribu-  
ting the foodstuffs that would "in-  
sure opportunity for the people of  
the United States to buy."

A report of a sub-committee ap-  
pointed to go into the matter, re-  
ported that "the inactivity of the  
government in the disposition of  
these food supplies was, and is, the  
result of a well defined policy by the  
secretary of war to withhold them  
from the domestic market and to  
protect the interests from which  
these products had been purchased."

The report also criticized the de-  
partment for its failure to declare  
sooner the food surplus. It esti-  
mated that on July 8, the value of  
this surplus stored in the United  
States over and above the needs of  
the army was as follows:

Corn beef, \$24,000,000; bacon,

\$23,000,000; hash corn beef, \$10,-

000,000; roast beef, \$20,500,000;

fresh frozen meats and poultry, \$20,-

000,000 and canned vegetables, \$23,-

000,000.

## FORMER RESIDENT DIES IN TOLEDO

The body of Robert Cyrus Hume, 84 years of age, a former Lima resident, who died Thursday at his home in Toledo following a short illness from heart trouble, were accompanied to Lima today and taken to the home of his sister, Mrs. Guy Kendrick, 103 S. Pierce St. Mr. Hume was well known in Lima, having received his early education here, and was for several years a photographer. He has many friends who will regret to learn of his death.

He had been in failing health for the past month, and in the hopes of recovering gave up his work, and went to a farm on Catawba Island. He had been engaged in the hardware business in Toledo, up until this time of his illness. Besides the widow Pauline Palmer Hume, the mother, Mrs. L. H. Hume, the sister Mrs. Kendrick, a brother Captain F. H. Hume, and an uncle, Frank Hume, are the nearest surviving relatives.

Captain Abner Fraser, Youngstown, Mr. Hume's brother-in-law, assisted by Rev. Kirk O'Ferrall will conduct funeral services Saturday afternoon at 4 o'clock at the Kendrick residence. Rev. Fraser is pastor of St. John's Episcopal church, Youngstown. Interment will be made in Woodlawn cemetery.

## RETAIL MERCHANTS PICNIC THURSDAY

A hundred members of the Lima Retail Merchants Association were in attendance at the banquet held in connection with the monthly meeting and outing at Orchard Island, Thursday afternoon and evening. The trip to the resort was made in the early part of the afternoon by autos. One of the features of the day was a ball game staged between the Clothiers and Grocers, and won by the Grocers, by a score of 7 to 5. Swimming and various amusements were enjoyed during the afternoon, and supper served at 6 o'clock. Speakers during the banquet were Judge Phil Crow, of the local appellate court and Frank Burkhardt, general passenger agent of the Ohio Electric. The return to Lima was made later in the evening.

## IS FATALLY INJURED BY FALL FROM CAR

Andrew J. Bartlett, 60 years of age, an employee of the Ohio Steel Foundry was perhaps fatally injured when he was thrown from a north bound Pine street car, at the curve at St. Johns avenue, about 6:30 o'clock Thursday evening. The accident happened as Bartlett was returning from work. He had just stepped into the vestibule, when the car rounded the curve, and he lost his balance, falling to the pavement. His skull was badly fractured. He was rushed to the Williams and Davis ambulance to the city hospital, and placed under the care of physicians. It was many hours before he regained consciousness. At the hospital today it was said that his chance of recovery were slight. The Bartlett family recently moved to Lima from Marion, Ohio, and live at 203 east Vine street.

### CEDAR CHESTS MADE IN LIMA

They're in our center window on Market street. They were made by the H. S. Moulton Co., and they are the best Cedar Chests ever shown in our store. The prices are extra special—really about the old price and now is the time you need one to protect your winter clothing from moth. They are certainly wonderful for storage. They hold so much and they are never in the way for you can place them at the end of a bed and put a nice creosote cover over them and they make a fine seat. They will cost a lot more later in the year, so if you are thinking of one for a Christmas gift buy now and make a payment on it and we will hold it for later delivery. If you want to satisfy that desire to own a Cedar Chest, you'll never have a better opportunity. Harman's, Market and Elizabeth streets.

### DEMANDED MORE PAY

ALLIANCE, O., July 25.—Plant employees of the Bell and Ohio State Telephone companies have submitted a demand for an increase in pay. The men demand an answer in five days. Both managers and leaders of the men refused to discuss the request but admitted such a step had been taken.

For automobile repair men an Indiana inventor has patented a frame into which a car may be run and clamped, then turned on one side to afford access to its mechanism.

## PROHIBITION MOVE IS ON IN JAPAN

Project Launched to Stop Manufacture of National Drink

TOKIO.—The prohibition movement in the United States has been followed in Japan by the launching of a project to stop the manufacture of sake, Japan's national alcoholic drink which is distilled from rice.

The end of the war has brought a check to the steady increase in the price of the necessities of life and the soaring cost of rice, which is the staple food of the Japanese people, is becoming a grave problem for the government. Last year the high price of rice led to serious riots throughout the empire.

The Japan Temperance Society has presented a memorial to the government urging the prohibition of making sake. The organization points out that about 15,000,000 lbs. of rice are consumed yearly in its manufacture. With the population of Japan increasing at the rate of 60c,

per year, and the national rice crop falling on account of the decrease of rice lands through civil and industrial expansion, the organization asserts that the enormous quantity of rice used in distilling sake might be turned to a better use in distributing it as food for the people.

Emperor Yoshihito is said to be deeply concerned over the living conditions among the people. Through his lord chamberlain he recently ordered the governors of the different provinces to investigate the changes in the thought of the masses, the cost of food for the middle and labor classes and the general industrial situation throughout the empire. The discontent of the masses of the people is seriously occupying the government, which is trying to devise means of relieving the situation.

As a result of the death of his daughter, the Lake Erie and Western railroad has given Alexander McBain \$1,000. The daughter, Beatrice McBain, in company with several other persons, was struck by a Lake Erie train at High street crossing, and later died as a result of injuries sustained. The other occupants of the automobile were severely injured but none fatally.

### HOSPITAL BOULEVARD PLAN.

A boulevard lighting system for the roadway running from West street to the state hospital grounds, and curving back on the West street road is being planned by the Columbus board of administration, according to Dr. Charles Clark, superintendent. Lights will be erected at 200 foot intervals along the wooded stretch of road. The work will not be started until fall.

### DRUGGISTS AT MEET.

### Shantung Case

REPUBLICAN Senators opposing the league from every viewpoint now find in the Shantung settlement, something more to roar about and rant about. Oratory unlimited fills the air and one might think that the Chinese were the dearest things to the heart of those senators.

Now the uproar concerning the Shantung case might be taken more seriously by the public at large if the attitude of the senators had been more conciliatory toward the league. Had Senator Lodge and his fellow Republican leaders withheld their judgment of the league until it was consummated and had they not tried to pick it to pieces on every occasion, jumping from one thing to another like a bunch of grasshoppers their criticism of the Shantung matter would carry much more weight.

The president has given a full, free and fair explanation of the situation that confronted the peace conference. China, with the league, will be in far better position than before and the league will be China's protection. It might have been better could this question have been settled differently but it could not. The case is not serious enough to warrant the overthrow of the league; that much is certain. If the league fails, China will be in a position far worse than under the covenant for she will once again be the prey of most of the great nations. China in the league, will find real protection and eventually through the league, the economic holdings of Japan will be yielded in the course of time.

### Creating a Thousand Dollar Estate

THE VALUE of life insurance is pretty generally understood. But the Atlanta Constitution presents a phase of this question which is worth thinking about. It says:

How much are you worth today? In other words, if you were to pass out tonight and your personal belongings became an estate, what would it be worth? How much would your wife and children have to live on until they adjusted themselves to the loss of the bread-winner of the family?

It is a subject worth thinking about.

With the cost of living advancing, it is very difficult for even the cautious spender to save much during each year, and it is sometimes difficult to invest that little at a rate of interest that is remunerative if the investment is secure. And the savings-account grows very slowly, entirely too slowly to be of great account in the case of your death.

It is into this breach that life insurance in a reliable company comes as an aid to the man who desires to save a little and at the same time protect his family from want in case of his death.

Certainly any man can save \$25 or \$30 per year, and with this, if in good health, a young man between ages 20 and 30 can instantly create for his family an estate of \$1,000 in case of his death.

How else can a man invest so small a sum in a way to produce such excellent results? At the rate of \$25 per year it would take forty years to pile up \$1,000, unless each payment was improved at interest, and in case of his death in the meantime his family would receive only the amount of his savings. Invested in a good life insurance policy, it immediately places \$1,000 protection between his family and poverty, and against it he can always borrow in case of urgent need.

### Air Protection

THE FATALITIES and injuries attending the destruction of a gigantic dirigible and its crashing through the roof of a Chicago bank building suggests that the state and federal governments may be forced to adopt regulations governing the flights of airplanes and blimps.

Although aviation has scored a marked progress in the last five years, laws governing flights, pilots, and "rules of the sky" have not kept pace with its development. The catastrophe at Chicago seems to be due to a mechanical defect which permitted ignition of the dirigible. Whether the accident in the loop district will result in laws prohibiting flights over cities, or whether such legislation is desirable, is a point that cannot be decided by one catastrophe.

Hitherto the suggestion of aviators that regulations regarding flights are in order have been received with credulity by most people, who could hardly believe that an accident to an airplane or a blimp might involve death and injury to persons many hundreds of feet below.

### Loyalty a Matter of Self Protection

LOYALTY IS A matter of self protection, whether it is loyalty to one's country or to one's employers, or to the profession or calling or industry in which one is engaged. Loyalty to country is protecting one's own home from invasion by an enemy. Loyalty to one's employer is protection to one's wages or salary or income. Loyalty to one's profession or calling means that the profession or calling will pay a better dividend upon the energies devoted to it.

These truths are age-old and are often repeated. But they can be repeated too often. There is so much of disloyalty in the world, especially of disloyalty to one's employers, that the truths can not be repeated in too hard or too frequently.

Stand up for your side of the street, and your part of the city, and the city's part of the state. Stand up for the business you are in, and for the men who are working with you—for your employers and for your fellow workers. It is a matter of self protection—the only way, in fact, you can hope to save yourself from the evil that will surely fall about your ears if you are disloyal in any sense, to anyone.

**HAPPY THOUGHT:** Send flowers instead of writing your girl that you love her. The idea is that she can't dig up the flowers and read them to you.

There may be no connection in this instance, but we do notice that a certain Florida never stayed up in the race so long until prohibition was enacted.

**WIVES:** Whenever some women get up as much interest in the household budget as they do in a powder rag this country is going to get better the very next day.

### WHY ALL CHILDREN SHOULD BE SAFEGUARDED FROM MEASLES

By DR. LEONARD KEENE HIRSHBERG

A. B. M. A., M. D. (John Hopkins University)

An example of applied ignorance, perpetuated non-sense and an age-old mistake has to do with measles, a dangerous disease, almost always present "in our midst." Measles is wrongly believed by many persons to be a certain and necessary visitation upon all children. As a result many a loved child has been done to its death by its doting mother, who said: "Oh, let him catch it. All children have to have measles sooner or later, so let him get it while the others have it."

This belief is a fallacy fostered by those who do not know that measles is easily prevented; who refuse to see that measles is more fatal often than typhoid, diphtheria and scarlet fever. The death rate from measles, which tradition are careless memory hold as a simple disease, is very high.

The complication of measles, such as pneumonia, bronchitis, eye and ear affections, make some epidemics of measles worse than Spanish influenza.

Familiarity breeds contempt. Because it is always around you fail to remember that from two to ten children in every hundred ill with measles go to their death.

You must, therefore, prevent measles by the means at hand. The disease is contagious for four days or so before "it breaks out." The isolation and quarantine of all children with watery eyes, sneezes and running noses is a harmless, wise precaution, even though measles may not be suspected. Even if it should not prove to be measles you are erring on the safe side.

Measles is really disseminated and made more virulent because brothers and sisters and other children with sneezes, coughs, running noses and red eyelids are allowed to play together and to go to school the three or four days before the measles eruption is visible inside the cheeks and on the skin.

To keep the child from being a source of danger to others, a child with measles ought not to be permitted near other children. His skin should be oiled daily, the mouth and nostrils ought to be disinfected thoroughly and frequently.

It is a curious, well nigh criminal streak in adult human nature not to be careful about spreading measles.

The complication of pneumonia, tuberculosis or other ailment is due to the measles microbe and its bad company of bacteria camp followers. If the measles had been treated and respected, instead of being held in familiar contempt, there would be a happier story to tell and no untrue excuses to make.

Finally, it is to be remembered that measles is not a trifling disease to be caught and done with, but a serious, often fatal contagion, as dangerous as smallpox or diphtheria, and much worse than many diseases.

F. L. M. A—If you will send a stamped, self-addressed envelope with your query repeated I will be glad to answer your questions.

AN ANXIOUS READER Q—What can I do for a fallen arch?

A—Electricity, massage and barefoot exercises will probably relieve the trouble.

MISS I. P. Q—What can I do for enlarged pores?

A—These are annoying, but not serious troubles. Massage, vibration and the use of some harmless paste such as lycopodium powder and glycerine or borated cocoa butter help to fill them.

### BIG HARVEST

FARMERS report a good yield of wheat and oats and all indications point to an excellent corn crop. The smaller grains do not harvest as heavily as expected, yet the year is a good one for the farmer.

Wouldn't a man appear absurd to neglect his planting and then at harvest time expect to find grain in abundance?

Something like this is the man who spends all his money, thinking that somehow his future needs will be provided for, or not thinking at all.

Start a savings account, plant all the money you can spare, and watch it grow. Five per cent interest may not make you rich but it will help a lot when the Autumn of life comes.

## ENGLISH WILL BE COMMON TONGUE

Is Replacing French as Universal Language in Near East

ISLAND OF CRETE, July 25.—The English language promises to displace the French as the language of business and diplomacy.

All through the near east the Anglo-American influence has resulted in thousands of elementary schools instituting English as a compulsory language. Even in the Mediterranean sea, the home of Premier Venizelos, instruction in English language has been arranged for.

American scientific agricultural experts are now completing a survey of the soil possibilities of Crete in the same thorough fashion in which they surveyed the Greek mainland.

Cretean soil is somewhat exhausted by centuries of cultivation without replacement of soil food, but with an abundant source of water supply in the mountains and available fertilizer it is believed much of it will respond to proper treatment.

American farming machinery and up-to-date methods are needed, and arrangements have been made to systematically educate the farmers of Greece and its largest island so that they can increase their yield of crops. Major C. G. Hopkins of the Illinois agricultural department, and Lieutenant C. T. Boynton, a native Greek educated in America and a former instructor at Michigan agricultural college, are in charge of the agricultural survey of Greece and Crete.

About 5,000 refugees from Asia Minor are sheltered and fed on the island of Crete. These are distributed in the large towns of Candia, Retimno and Canea, and in the small towns of the interior.

American Red Cross representatives have visited these refugees as well as the civilian and military hospitals on the island of Crete, in addition to investigating the conditions of the Greek soldiers returned from German prison camps and the townspeople of the island.

The greatest needs of the inhabitants of the island are an institution for the treatment of tuberculosis, medicines and medical supplies, blankets and staple foods.

## SENATOR DEFENDS JAPANESE MOTIVES

WASHINGTON, July 25.—Declaring that the treaty provision giving Japan control in Shantung had been repeatedly misinterpreted and generally misunderstood, Senator Robinson, democrat, Arkansas, told the senate it was unjust to suspect Japan's motives or to question the declaration of her statement that the territory would eventually be restored to China.

"It has been stated by one senator," said Mr. Robinson, "that by the treaty Shantung with its 10,000,000 inhabitants is wrested from China

and presented to Japan. The territory involved in this controversy is limited to a small land area of approximately 260 square miles and an equal water area. The total population of the leased area is approximately 165,000.

"That Germany regarded her rights in Shantung as subject to seizure by the allied nations at war with her is disclosed by her efforts to anticipate their occupation of the leased territory. Japan obtained possession by act of war and while in possession secured the agreement of China to recognize any settlement upon the restoration of peace.

"Japanese statesmen have repeatedly reaffirmed the purpose to return the ceded territory to China as soon as it can be accomplished in accordance with the agreement between China and Japan. No benefit

cial effect can result if we assume that Japan is acting in bad faith."

## BIG CIRCUS IS DUE TO ARRIVE BEFORE DAYBREAK IN LIMA

Well, youngsters, it's almost here. Sometime between midnight and dawn the big new circus bearing the strange yet familiar title of "Ringling Brothers and Barnum & Bailey Combined" is coming to town. The advance guard of the show states that all is in readiness for the invasion, while the juveniles have, in many instances, already set their alarm clocks for an unearthly hour. At the railroad yards switching crews are busy clearing tracks for the many show trains that must be taken care of when they arrive from Dayton.

Railway officials state that the circus is far and away the biggest that has ever been transported over their lines. The trains will be met by the show agents who are in the city today making final arrangements for the coming of the "white elephants." One of these is the "24-hour man." He will arouse the various superintendents and their men. Then will begin the tremendous task of moving the contents of the trains to the circus grounds. It is said that those who rise in time to watch this operation will witness the unloading of the greatest amount of paraphernalia and the largest number of wagons, horses and animals that have ever visited this city. In consolidating the two famous shows the Ringling Brothers have selected the finest and biggest features of both. The elephants number practically all trained pachyderms in the circus world. A gigantic "super-herd" of these is used on the arena program. There are a total of eight giraffes. Herds rather than mere "families" of animals are now introduced in the menagerie.

The most beautiful ring horses and the heaviest and finest of the draught stock of the two circuses have been merged. The percherons and Normans promise to be much in evidence in the street parade scheduled to depart from the show grounds at 10 o'clock tomorrow morning. This procession, like all else connected with the new circus, is of greater length and brilliancy than any presented in former years. In addition to the scores of open cages, the bands, the callioles, and frequent tableau displays—without which a circus parade wouldn't be a parade at all—are many distinct novelties entirely new to the sidewalk crowds. "Bigness" is the keynote of the parade and it is said that the elephant division is alone one of the most remarkable spectacles ever presented.

At the show grounds will be erected the biggest main-tent ever built. The increased size has been made necessary because of the additional number of performers and the massiveness of the acts exhibited. One of the latter introduces five times as many elephants as have ever before been presented at one time. The menagerie tent is said to be almost as large as the "big top" of former seasons. This will be open to the public at 1 and 7 p. m. tomorrow. The main-tent program will begin at 2 and 8 o'clock. A gorgeous pageant will precede the arena displays. This enlist hundreds of characters and horses

There are many handsome vehicles. The pageant introduces many of the best-loved stories, from fable and nursery rhyme so dear to the hearts come a host of arenic features.

In all, almost three hours of arenic surprises will be presented in the great circus "big top," which is the largest tent ever constructed. All the famous aerialists, riders, acrobats and clowns of the world will be seen on one program for the first time, and there will be an unprecedented number of animal features, including five great elephant troupes, comprising what is known as a "quarter of a million pound elephant act." Five troupes of trained seals, wonderful dog and pony acts, and scores of the funniest clowns on earth will be on hand to amuse the children.

For the convenience of patrons a downtown ticket office will be conducted all day tomorrow at Mykrantz's drug store, corner of Main and North streets.

## HOME SERVICE OF TOWNSHIPS PLAN AID TO SOLDIERS

The meeting of township Home Service workers held Thursday afternoon at the Chamber of Commerce auditorium for the purpose of discussing several problems of importance, was very successful, according to Mrs. Irene Jackson, local chairman of the Red Cross Home Service work. C. E. Wilder, from the Cleveland Lake Division headquarters, explained the many forms into which government insurance for the men can be converted, and also answered many questions relative to the subject.

Another meeting was held in the evening at Delphos, which was well attended, mostly by returned overseas men. On next Sunday a community welcome is to be held at Spencerville for returned men from that town, and the local Home Service will have a booth on the picnic grounds, prepared to answer any questions pertaining to the soldier's welfare.

### BONDS ARE FORFEITED.

Mr. and Mrs. Charles Krebs of Delphos were to appear in police court Friday morning to answer a charge of drunkenness. However, when their names were called, they were not "among those present." As a result they forfeited their bonds of \$10 each. The couple were arrested here a few days ago on the charge and released under \$10 bonds. Rolly Hancock, another who was to appear on a similar charge, also forfeited a like bond.

### SPEEDERS PAY FINES.

When he failed to appear in police court Friday morning to answer a charge of speeding, C. F. Sweeney, 1373 Brice avenue, forfeited his bond of \$10. Ben Gart, 1425 North street appeared in court and was fined \$10 for a similar offense.

## Incendiary Fire In a Tenement

Fire, believed to have been of incendiary origin, caused a damage amounting to several dollars in a tenement house at 830 East North street, at an early hour this morning. The families residing in the building were driven to the street in their night clothes.

An investigation by Chief Mack disclosed the fact that a pile of rubbish, saturated with kerosene oil, had been fired in a room on the lower floor. Indications are also to the

effect that floors of various rooms had oil poured on them, Chief Mack says.

## PRETTY LUNCHEON

It was a very pretty luncheon, that of Thursday, with Miss Hazel Wright, presiding charmingly, when she had a number of her friends in to meet her two delightful house guests Miss Helen Bicknell, of Findlay and Miss Gertrude Hunter, of Norristown, Penn. Miss Wright looked particularly well in a summery frock of pink georgette, while Miss Bicknell was in blue and Miss Hunter, in white. They were a very attractive trio, heading the receiving line.

The luncheon was delicious and was served at small tables in the living room, while in the parlor there was one large table where were placed the more intimate friends of Miss Wright. Deep pink roses and purple sweet peas were the floral decorations used on the tables, while ferns and palms were used in making the rooms attractive.

## WOMEN OF MIDDLE AGE

How Lydia E. Pinkham's Vegetable Compound Relieves the Ailments of Change of Life.

"During Change of Life I had hot flashes, dizzy spells and every month I was wild with misery. I had a constant dull pain, and would always feel tired. I suffered in this way for five or six years and was treated by a physician and took many remedies without benefit. Lydia E. Pinkham's Vegetable Compound was recommended to me and I took it, and I believe I would never have been well if it had not been for the Vegetable Compound and Lydia E. Pinkham's Sanative Wash. I am recommending your medicine to all women ailing as I was, for I think it will carry them safely through the Change of Life, and relieve the ailments that come at that period."—Mrs. ALEXIE C. NANGLE, Galatia, Ill.

Women who suffer from nervousness, "heat flashes," backache, headaches, and "the blues," should try this famous root and herb remedy, Lydia E. Pinkham's Vegetable Compound, and if complications exist write the Lydia E. Pinkham Medicine Co., Lynn, Mass. The result of their 40 years' experience in such cases is at your service.

## A Chance to Live

(By Zoe Beckley)

### WHEN DREAMS COME TRUE.

As they walked east through the block where the Hargans lived, Annie was afraid her escort would sniff at the disheartening surroundings. To her relief he seemed to take no notice. She slowed down—they were getting to her door. He lingered a minute, looking at Annie, not the dismal tenements, the cheap saloon near by, the barrels that still remained, redolent of such poor scraps as even Poverty had discarded. She sensed admiration in his gaze and felt elated.

"I've had the loveliest time," she smiled.

"That's good; we'll go again," answered Carroll.

From an open window near them came the sudden cry of a baby and immediately its mother's soothing:

"There, there—sh—sh—"

A fragment of a crooning song. Annie wished he'd say good night and go now, before the neighbor with the wailing baby put her head out the window and bid them do their "gadding somewhere else."

A marauding cat scrambled upon a laden barrel and began to sniff among the rubbish. Another cat yowled.

"Whereabouts do you live, Mr. Carroll?" Annie asked the question partly to distract him from the squalor about them, partly as a remote reminder that he had still a journey to make.

"Oh, I live up a ways on the west side—it's worse than this," he added good humoredly. "But it don't bother me. It ain't where you start from that counts; it's where you end up! Well, I guess I won't keep you

any longer. Glad you enjoyed it. Good-night—see you tomorrow."

"Good-night," said Annie, "and thanks."

She liked him the better for that last bit of philosophy. She guessed he had said it to make her feel more comfortable. She slowly climbed the stairs, a warm feeling of gratitude and friendliness round her heart.

She had had a wonderful evening and there was much to think about. She addressed quietly, unfasting the pretty blouse with careful fingers. She smiled as she saw how crushed it was from the dancing.

"He never noticed me till I had this," she said to herself, smoothing it over the back of a chair. "If he asks me again I'll have to wear something else."

She got into bed wondering how much enough white duck cost to make a skirt, and how she could contrive a pair of shoes—thin, low ones, like the other girls wore. She hitched her pillow so as to see the widest possible strip of starry sky and lived over every detail of the boat club dance and the coming home. Now that she was home again in the shabby room, in her little cot, it almost seemed a dream.

How many times had she longed for something like this—a "fellow who would like her and 'take her places.'" And here had been the very fellow all these months right in the office! She had never thought of Bernard Carroll as attractive, though she had taken passing interest in his neat clothes, his busy air. Annie did not realize that any man becomes interesting to any woman as soon as he shows her marked attention.

She thought of Herbert Travis at the settlement house, but the little pang that shot through her soon spent itself and a feeling of rightness came. If Travis was handsomer, richer, better dressed and better educated than Bernie, he was also further removed from her level. It would have been difficult if not impossible to "live up to" Travis. But Bernie was of her world, spoke her language, was not incongruous to build her thoughts around. Travis, Annie mused, belonged with her abstract wishes of long ago—the things she would have asked a fairy with a magic wand were by. Bernie Carroll seemed the fulfillment of a more practical conception.

## BIRTHDAY ANNIVERSARY

The Ladies of the G. A. R. were invited to spend the afternoon with Mrs. Mary E. Riley at her home on the North Cole street road, Wednesday. The ladies responded beautifully, 18 going to the home of Mrs. Riley to help in the celebration of her birthday anniversary. The afternoon was spent delightfully, and those present enjoyed the cool country air, and the comfortable porches. They left for their homes about six o'clock having enjoyed themselves very much and wishing Mrs. Riley many, many more birthdays as happy as this one.

## FORMAL RECEPTION

Quite the most elaborate function for some time in local social circles was the reception which Miss Katherine Gramm tendered the members of the younger set, in honor of her house guest, Miss Helen Kershner, of Bowling Green. Those who were invited to meet Miss Kershner were instantly won to her, by her sweet ways and charming manner. Miss Gramm was in white net with gold ribbons and Miss Kershner wore rose voile. Miss Josephine Rogers and Miss Jennie Haynes were at the door.

The music room was converted into a bower of loveliness, with three lovely creatures in it. There were pink roses everywhere, while Mrs. Austin attired in rose colored chiffon sang several of her favorites to the accompaniment of Mrs. Gayle Dunifon, on the violin and Mrs. Holder, of Toledo, on the harp. Mrs. Dunifon was also modishly gowned in the same shade of georgette, while Mrs. Holder, wore white taffeta with silver lace. The music was charming. The trio was heard very often together and then again there were solo numbers for the harp.

Groups were served delicious refreshments in the dining room. Ice cream was in the form of lilies and roses, while the cake was iced with lavender, pink, white and green, respectively. Miss Eleanor and Miss Irma Spiker presided in the dining room.

The invited guests were Misses Viola Allen, Katy Phillips, Roma Finkler, Helen Basinger, Leona Bernstein, Bertha Bascomb, Gertrude Anne Bradley, Madge Breese, Irma Bodkin, Lorene Barkhard, Hope Hollister, Helen Hoegner Dorothy Johnson, Mildred Jones, Esther Kemmer, Geraldine Kay, Rowen and Dorothy Kahle, Dorothy Kleinberger, Pauline and Viola CaJacob, Eloise Cunningham, Marian Cable, Dorothy Campbell, Hester Carpenter, Dorothy Collins, Mary Dille, Mildred Downing, Catherine Galvin, Margaret Graham, Geraldine Graff, Mary Griffen, Lillian Happecott, Sara and Betty Laughlin, Hilda Leete, Margaret Mullen, Elizabeth Moulton, Margaret Mehafter, Blanch Neeley, Ingeborg Nelson, Marlene Prosser, Helen Tew, Mary Parmenter, Naomi Parker, Ruthella Dreble, Josephine Rogers Alice Rossfeld, Lucille Roush, Arnette Roby, Donna Shappell, Katherine Snyder, Margaret Stone, Abigail Sullivan, Josephine and Rec Sherwood, Irma and Eleanor Spiker Dorothy Schell, Margaret Simpson, Evangeline Swank, Charlotte Sieber, Edith Trau, Merle Thompson, Janita Toy, Frances Townsend, Janet White, Wells Katherine and Doris Young, Frances Griebing, Nell and Ethel Stiles, Pauline Wenner and Jeanette and Magdalene Stolzenbach.

Maurice O'Connell left for his home in Bakersfield, Cal., after a week's visit with his sister, Mrs. William Phillips, of South Main street.

C. A. Keller, returned to his home in Cleveland, after visiting at the home of M. Robinson, of West Kibby street.

Mr. and Mrs. J. A. Sweeney, of Grand Rapids, Michigan, are here for an indefinite stay.

Miss Elsie Plummer of the Plummer company, is in New York, for a week.

Charles Miller and Paul Smith, stopped over here several days with Mr. Smith's sister, Mrs. Benjamin Smith, of south McDonald street. They are enroute from Wapakoneta to Chicago, where they will attend a Sunday School Convention.

## INFORMAL PARTY.

Miss Ruth Tallman, of Toledo, a popular visitor in this city, now the guest of Miss Rachel Lemon, of west High street, was again complimented on Thursday evening, when Miss Lemon entertained a number of friends with dancing and other informal amusement. The rooms of the Lemon home were artistically arranged with bowls of red rose buds, with greenery of ferns here and there adding to the beauty of the scene. Dainty refreshments were served at the conclusion of the evening.

## ARRESTED FOR BOIN

Walter Blank, 1042 Bellefontaine avenue, was Thursday night ordered into police court on a charge of disorderly conduct. It is probable he will be arraigned in police court Saturday morning. According to police, Blank was arrested while loudly blowing a horn of an automobile late in the night and disturbing residents of the city by the noise.

CORNER MARKET AND ELIZABETH

# "Bluem's Had What I Wanted, as Usual,"

## ---At the Lowest Price---

The foregoing statement by an unknown patron was over heard by the writer the other day.

She addressed a friend in pleased, convincing terms.

That conviction which she so surely expressed is the thing which keeps this situation in its unflinching path.

Knowledge that one's efforts or the effects of a great working organization are appreciated, makes the victory doubly sweet.

Our growth is hastened by the inspiring, mute testimony that patrons can "do" better for their money at Bluem's than elsewhere!

Mention is made, not egotistically, but in appreciation—and with a great sensation of happiness.

Greater varieties, better qualities, more pleasing service, and lower prices are the four great spokes in our merchandising wheel.

JULY 25, 1919.

## ARTHUR DILLER, OF ELIDA HOME FROM SERVICE IN FRANCE

Arthur D. Diller, a well known resident of Elida has just returned from France, where he spent more than a year's service with the Friends Reconstruction Unit.

He was first stationed in Paris, where he did canteen work for the refugees going south during the last great German drive. Later he was located at Malabry in the hospital for

tubercular refugees and then went to Ormans where the Friends maintained a factory for turning out demountable houses which then are erected by the thousands in the devastated villages of northern France. After that he went to Villers where he was engaged in erecting the houses in the village.

He was later transferred to Grange-le-Comte and became a part of the transport department there. Grange-le-Comte is the headquarters of the district west of Verdun which the Friends are now engaged in putting in shape for the returning inhabitants. A large part of the villages have been rebuilt, the fields have been plowed by tractors and a large portion of them seeded. Relief supplies of all kinds distributed; this includes food, clothing, seeds, farm ma-

chinery, etc. About 550 workers are still in the field and the work will probably continue until next spring. This is the largest piece of reconstruction work now going on in France.

## BASEBALL PHRASES ENRICH LANGUAGE

New Universities Dictionary Defines Terms Used By "Fans"

Baseball, this country's great national pastime, has come to have a language of its own. The newspaper men who follow the fortunes of the various big league teams throughout the season of activity on the diamond would not be able

to tell their story if they did not employ many words and expressions whose meaning is clear enough to the more enthusiastic "fans," but often more or less obscure to casual followers of the game.

The New Universities Dictionary being offered to the readers of this paper contains a supplementary dictionary, giving an exhaustive list of such terms, and defines them so fully and clearly that anyone after a little study would be able to read understandingly the most difficult of the Sporting Editor's passages.

The study of this list will be found not only entertaining but instructive, as many of the words treated therein have been borrowed by writers in the general field of literature seeking new and effective means of expression, and their use outside of

the baseball column in the newspaper has come to be regarded as both proper and in good taste.

The expression "hugging the base," for instance, in baseball parlance, means that a runner is keeping close to base, fearing a surprise play; it also aptly conveys the idea of a cautious attitude in any one of a number of situations that can easily be imagined. Students of language will find the dictionary of baseball incorporated The New Universities Dictionary of vital interest.

### DEAD IS ALIVE.

## SPIES BETRAYED BY INVISIBLE INK

Correspondence of Germans  
When Treated Chemically  
Showed Intrigue

PARIS, July 25.—During the three or four months Paris was exposed to the long-range fire of the "Berthas," and more generally during the whole period of the air raids, Parisians were forbidden to communicate to one another over the telephone details with regard to points hit by shells.

The wisdom of this order has been amply justified in the light of discoveries made by the police. The Germans were particularly anxious to obtain precise indications as to the results of their long-range fire. A pilot named Teulat was arrested for espionage. His accomplice, Raviez, a primary schoolmaster serving with an infantry regiment, succeeded in escaping.

Last September the Swiss police, on the information of their French colleagues, seized a letter written by Raviez, who was then interned in Switzerland, addressed to a Mlle. Ricke, of Fribourg. The letter was signed "Otto Muller." Raviez's belongings were searched and invisible ink was found. The letter was chemically treated and revealed the following:

"Report No. 5, September 16, 331A, gives me the following information of today's date, furnished by an auxiliary soldier hailing from the Paris region: The aviation camp of Le Bourget, bombarded by a German squadron last April, has been once more occupied by the Americans since August 15. The camp contains about 200 machines."

A careful watch was kept. A letter from Raviez, to a Mlle. Christant, was next seized, announcing the dispatch of a parcel of perfumery, which she was requested to hand to her relative, a forest ranger in the neighborhood of Fomey. After that a third letter, which contained these words:

"A parcel containing perfumery and six handkerchiefs, which you will handle with care. Send the lot from Lyons within four days to Mlle. Germaine, etc., telephonist, Villoult."

The parcel was seized and the handkerchiefs found to have been chemically prepared for invisible ink. The parcel was then allowed to be sent on. It reached Mlle. Germaine, and that same evening she was arrested as she was handing it over to Corporal Teulat of the flying corps. The corporal confessed.

## PRIMITIVE COUGH CURE.

In olden days people used to boil snails in barley water as cure for a cough.

The Best Cough Medicine. When a druggist finds that his customers all speak well of a certain preparation, he forms a good opinion of it and when in need of such a medicine is almost certain to use it himself and in his family. This is why so many druggists use and recommend Chamberlain's Cough Remedy. J. B. Jones, a well known druggist of Cubrun, Ky., Cough Remedy in my family for the years. "I have used Chamberlain's past seven years, and I have found it to be the best cough medicine I have ever known."

## Facts You Ought to Know!

STORY NO 3.

MR. CITIZEN:—

## 'BETTER BE SAFE THAN SORRY'

Don't you suspect the old sage that first made that statement had just gone through a sorry experience? And don't you think that's pretty good advice?

Haven't you regretted some things you have done on a hasty impulse?

If so you will appreciate the importance of careful examination in all matters which can not be rectified in case of mistake. Consequently it behooves you to stop and consider well everything you are about to do before making the move.

It's a good policy to investigate all blind alleys before you rush in headlong. Read your ticket before boarding a train. Beware of all that is vague.

The voters are at present considering the plausibility of a municipal lighting system. Or at least, every voter should consider the matter, and consider it well before coming to any definite conclusion. The program calls for an increase in the city's bonded indebtedness. It offers no guarantee of success. It really includes no promise of saving to the taxpayer.

Here are a few facts, stop and think about them before you get the matter definitely decided in your mind—Public ownership spells political domination and ultimate destruction of efficiency and good service. It's bound to, for the constant changes in control remove the incentive of employees to do their best in the hope of promotion. Once thrown into the clutches of politics, a public utility becomes a football for manipulators.

INVESTIGATE THE FACTS BEFORE YOU DETERMINE.

## BERNSTORFF SEES CHIEF HOPE IN U. S.

Declares Germany's Fight  
to Enter League Must  
Take Her to America

BERLIN, July 25.—Count Von Bernstorff, former German ambassador to the United States, speaking at a Democratic party meeting said Germany must never forget that a world policy such as was engineered before the war had become impossible.

Peace, he added, had been signed under protest but, having been signed, honor demanded as the basis

of future policy "that we fulfill the peace terms according to our best ability and with a conscience that does not hinder what we freely admit to the entire world, that the goal of our policy will be to secure a revision."

"Whoever lives in Germany," Count Von Bernstorff said "knows that we neither want, nor can we conduct a war of revenge."

Count Von Bernstorff asserted that while the league of nations was regarded in Germany as a Holy Alliance aimed at Germany, and that without Germany, Austria and Russia it would be a mere facade, it will assume its real function when Germany enters it of combining all the people's energies.

"We believe," said Count Von Bernstorff, "that the fight to get into the league necessarily will take us to America's side, because America is the most active supporter of the

league and alone is able to finance world economic problems."

## SOLICITOR LIGHT FORMALLY FILES ELECTION OPINION

City Solicitor, Light, Friday morning, filed his opinion of the ruling of Attorney General John Price, relative to the holding of an election to decide whether or not Lima is to have a commission form of government, with Clerk of Council Heffner.

Price some time ago ruled that an election held on August 12, in conjunction with the primary election will be illegal. Light in his opinion differs from the attorney general. However, both attorneys agree enough time has not nor will not elapse between time the ordinance calling for the election was published and the date of the election as the law specifies "not less than 60 days nor more than 120 days" must elapse.

While nothing definite is known,

Jack Johnson is Training Roper to Get Dempsey—Tom Cowler Will Fight Lil' Arthur in Mexico.

**BOXING - SPORTS****TOM COWLER WILL BATTLE JOHNSON**

White Man Will Meet Black In Mexico, But Not On July 27, As Scheduled

It's Tom Cowler, not Porky Flynn, against Black Jack Johnson, for 20 rounds at Monterey, the capital of Nuevo Leon, Mexico. The Times announced recently that Porky Flynn would fight the ex-heavyweight champion in the land of bandits on July 27th. This was the original plan, Johnson and Flynn, but the bout has been switched about and Cowler will take Flynn's place.

"I'll tell you how this happened," said Al Lippe, manager of Cowler, to a sport writer. "Johnson is promoting the show himself, I think, Flynn was engaged to meet Johnson on July 27. But Flynn evidently didn't care to risk his hide with the Mexican bandits. So Johnson wired me and asked me if I'd let Cowler box him. I wired back 'yes,' and Johnson sent on transportation and expense money. So Cowler will fight Johnson in place of Flynn, but not on July 27. Tom has been out at East Pembroke with Matt Wells and Bill Heveron for weeks, or since the night he boxed One Round Davis. Tom will leave for Monterey on Thursday night, but he wouldn't get there until Monday, if he keeps on going and doesn't have any bad luck. So you see the fight can't be held on July 27. I suppose it will come off the first week in August, and let me give you a tip: Cowler will flatten M. Johnson."

Lippe left Buffalo Wednesday for Philadelphia with his protégé, Willie K. O. Loughlin. Al will not accompany Cowler to Monterey, which indicates that Al, too, has a dislike for Mexicans and their bandit ways. Joe Woodman of Boston, will be Cowler's chaperon.

Ed Barrow merely asked for Felsch and Weaver in exchange for Carl Mays. The deal is hanging fire while Kid Gleason is trying to force Ed to take Eddie Cicotte off his hands also.

So far the slump of the Red Sox has been blamed on everything but prohibition.

**ROPER TO FIGHT CHAMP, IS LIL' ARTHUR'S SCHEME**

Among the many would-be champions who will hurl defiance into the teeth of Jack Dempsey now that he is champion of the world, is one Bob Roper, of Chicago.

The name of Roper doesn't suggest much, unless we remember that he is the American amateur heavy-weight champion, recently Captain Bob Roper, of the United States army, and erstwhile a boxer of more than ordinary ability during his amateur days.

Prior to entering the army Roper was a physical culture trainer around Chicago. Some years ago he met Johnson in the Windy City and at that time his ability as a boxer and fighter impressed the Big Smoke, who never forgot him.

Only a few months ago Roper received his discharge from the army, and while the fists fans of the country were all hot up over the prospects of the big fight at Toledo, Roper went to Mexico City with Charley Cutler to join the former champion there.

Cutler, who was once Willard's

manager, and who claims that Willard threw him over, has long been seeking a man to beat the big cowboy. Jack Johnson, a man without a country but still a seeker of revenge against the big white man who beat him at Havana, has also been longing to find the man to get his revenge from him by proxy. So between Cutler and Johnson, Roper was taken in tow and training preparations began.

At that time the big fight was still many weeks away. Johnson was confident that Willard would defeat Dempsey easily. He didn't believe that the man who whipped him could be beaten by the "little fellow." Cutler thought the same way and the training of Roper went merrily on.

Now with the big fight over and Willard uncrowned, Johnson has lost his opportunity to get revenge on Willard by proxy through Roper, but he expects to have a hand in the uncrowning of the champion just the same, for he believes that Roper is the man to defeat Jack Dempsey. Roper is training daily with John-

son and Cutler in Mexico. Reports from the Mexican metropolis say that Johnson is teaching his protégé everything he knows about the ring game, and with Cutler's assistance is furnishing the ex-army captain with more experienced teaching than either Willard or Dempsey ever had.

Just now Roper isn't ready to meet the champion. He is to be carefully groomed and he is to be sent against a number of professional battlers before an attempt will be made to force Dempsey to meet him. When he is ready he will be brought back to the United States by Cutler and campaigned, meeting as many good men as Cutler can find for him.

So the grim, black shadow of Jack Johnson, exiled though he is, is already casting itself across the trail of the heavyweight champion, and Roper may some day be recognized as a worthy opponent for Dempsey. If Roper has ability Jack Dempsey ought to be able to bring it out and the benefit of having Johnson's ringcraft taught to him is something.

**WILL CLAIM TITLE IF KAYO HAPPENS**

Joey Fox Will Weigh In at 122 Pounds In Order to Get Chance at Title

PHILADELPHIA, July 25.—

Johnny Kilbane, featherweight champion, may lose his title next Monday night to Joey Fox, the claimant of the British featherweight title, but he will enter the ring with all the benefits of catchweights. He declined to face the Britisher under any other conditions. Therefore, if Fox weighs in at 122 pounds at 3 o'clock before reputable witnesses and succeeds in knocking out Kilbane he will be recognized as the champion. The two "ifs," however, may prevent a change in the title.

"We offered to weigh in at either 126 pounds at 2 o'clock, the British limit," explains Johnny Mooney, manager of Fox, "or at 122 pounds at 3 o'clock, the American limit. Kilbane declined to make either weight, insisting on catchweights. So we gave in. Fox will weigh in at 122 pounds at 3 o'clock in order to claim the world's championship in case he knocks out Kilbane."

Fox says he won the British featherweight title after Curley Walker, of London, grew out of the class. He says he knocked out Jim Barry, of New Castle, in eighteen rounds in 1915; not a decision in twenty rounds over Tommy Harrison, of Hanley, and then knocked out Young Simons, of Plymouth, in eighteen rounds. Following these

**LEWIS SAYS TITLE IS HIS**

The Kid Has Declared He'll Be the Wearer of the Welter Weight Crown

LONG BRANCH, N. J., July 25.—

Ted (Kid) Lewis declared Thursday there will be a new welterweight champion after he meets Jack Britton next Monday night.

The ex-king of the welters is training here for his bout with Britton under the experienced eye of Jimmy DeForrest, who whipped Jack Dempsey into such marvelous condition for his battle with Willard.

Lewis figures himself the winner because he has youth on his side. He points to the recent heavyweight championship battle as an example. "There is something like eleven years difference in our ages and that margin means in my favor," Lewis said. "Besides, I've met Britton many times before and this time I'm going to be right. Jack Dempsey recently demonstrated what youth can do."

been sold. This does not include

members of the organization, nor other seats not reserved.

Indications are that the old ball yard will be crowded to its fullest capacity at the battles. A very attractive card has been arranged and officials of the club promise fans who come will not be disappointed.

John Kilbane wants \$12,000 for his end to meet Benny Valgar. Is it possible our Johnny wants to be all set for one of those towel parties?

**THROUGH THE SPORTSCOPE**

The Cleveland fans grew peeved when Babe Ruth hit a homer with three on last Friday and Lee Fohl resigned. It is up to Tris Speaker to see that not more than two are on when Babe hits his next one.

Sam Cramer, wrestler, broke his leg in a fall at Battle Creek. The climate there must be more brittle than at Toledo, where a guy can fall seven times and break nothing but his friends.

Down Boston way there are expecting the Braves to show better form when they get on the road. Some birds could find hope for a wet candidate at Columbus Grove.

"If Ray Caldwell is in shape he'll work for the Red Sox today," wires a Boston scribe to his paper. Don't know if Ray has all his old time stuff any more, but he is still there with the old "if."

On being traded to the Cardinals Ferdie Schlupp announced he was going to quit baseball. From this we take it he is ready to report to Rickey.

**ISN'T IT MOST ABSURD?**

Newspapers from coast to coast have commented on the absurdity of the state board of censorship forbidding the exhibition of movies of the Willard-Dempsey "fight" in the state which gave legal sanction to the real contest. But we wonder if there is a film theatre in the entire state which doesn't exhibit every week pictures featuring fist fights or "comic" sandbagging which are three times as "demoralizing"—and much more exciting—than the pacific little affair of July Fourth at Toledo.

**MIGNOLA WINS THE FAST MIAMI STAKE**

Drivers Hedrick and Allen Are Yet In Hospital as Result of "Wreck"

TOLEDO, O., July 25.—The Fort Miami stake of \$3,000 for 2:09 trotters, feature event on yesterday's grand circuit card at Fort Miami, was won by Mignola, the favorite. Mignola's best time was 2:04 1-4 in the second heat.

The 2:04 pace for a purse of \$1,000, had sixteen starters. The judges decided that the field was too large and the race was split into two divisions. On account of only three entries in the 2:07 trot the race was called off.

Driver in Hospital.

It was reported today that Edward Allen, who suffered a compound fracture of an arm in an accident at the race track the second day of the meeting, had been taken to a hospital. Frank Hedrick, injured in the same accident, is in a hospital suffering from internal injuries.

Thirty-nine horses are scheduled to go after \$5,000 in the Grand Circuit get-away racing at Fort Miami this afternoon. The track continues fast, no rain having fallen all week.

There are four races on the final program of the meeting. The 2:15 trot for a purse of \$1,000, has 13 starters. The feature event of the day, the Fort Meigs \$2,000 stake for 2:12 class pacers, will see ten ready to take the word. The 2:19 trot for \$1,000 has 11 and the \$1,000 2:01 pace has five listed to go. The meeting thus far has been featured by good attendance and the fast and clean competition.

**MORAN AFTER TWO PLAYERS WHO ARE HITTING THE BALL**

NEW YORK, July 25.—The Cincinnati club is dickering with the Rochester Internationals for George Kelly, the lanky first baseman, and outfielder, who had several try-outs with the Giants and also failed once with Pittsburgh. George, however, is knocking the cover off the ball in the International, and perhaps Moran can use his magic on him and convince him he can hit big league pitching.

Another player that Moran is after is Jimmy Conner, infielder of the Providence club of the Eastern league. Conner has had try-outs with the Red Sox and Detroit.

## STOCKS RALLY ON MATERIAL GAINS

NEW YORK, July 25.—Rallies of 1 to 2 points from yesterday's late depression were recorded at the outset of today's stock market, the strongest issues embracing oils, zincs, equipments and shippings. Royal Dutch, Pan-American, Mexican Petroleum, Standard Oil, General Motors, Baldwin Locomotive, American International and Marine companies were the central features. Food shares also recovered with tobacco and leather, and utilities strengthened under lead of Peoples Gas, Bethlehem Steel was the one backward issue, receding almost two points.

With scarcely an exception, gains of the opening were materially extended although trading lacked yesterday's activity and scope. Shippings assumed greater prominence on the 2 to 4 point gains in marine, Atlantic Gulf and Pacific Mail, Crucible featured the steel, as a 5 point advance, motors and accessories rose 2 to 5, steel equipment an average of 2 points and tobacco, leather, textile and distilling issues 2 to 3. Falls, excepting Reading and New Haven, remained listless and metals were dull. Call money opened at 1 to 3 1/2 per cent.

### WOOL MARKETS

BOSTON, Mass., July 25.—The Commercial Bulletin reports that the wool market is steady and prices, while not materially higher, are showing upward movement. The market is showing more interest in the lower grades, which are being bought for the manufacture of cheap goods. The demand for the higher grades is also good, but the market is not so active as it was some time ago. The price of raw wool is about 10c per pound, and the price of clean wool is about 12c per pound.

Van Note the owner, to the Lima Loan and Savings company, as a proposed site for their new building. Announcement of the closing of the deal was made Friday by Thomas Schoonover, president of the loan company. The consideration was said to be \$50,000.

The property has a 50 foot frontage on West Market street, and 100 feet on North West street. The Manhard hotel now occupies part of the site, and will continue to do so until their lease expires August 31, 1920.
